JOURNAL OF MEDICAL ENTOMOLOGY

ISSN 0022-2585

Vol. 30 1993

JOURNAL OF MEDICAL ENTOMOLOGY

Founded by the late J. Linsley Gressitt

The *Journal of Medical Entomology* is devoted to all phases of medical entomology and medical acarology, including the systematics of insects and mites of public health and veterinary significance.

STATEMENT OF OWNERSHIP, MANAGEMENT, AND CIRCULATION

1. Title of Publication: Journal of Medical Entomology (00222585).

2. Date of Filing: September 1992.

3. Frequency of Issue: Bimonthly.

4. Complete Mailing Address of Known Office of Publication: 9301 Annapolis Road, Lanham, MD 20706.

5. Complete Mailing Address of the Headquarters or General Business Offices of the Publishers: 9301 Annapolis Road, Lanham, MD 20706.

6. Full Names and Complete Mailing Addresses of Publishers, Editors, and Managing Editor: *Publisher:* Entomological Society of America, 9301 Annapolis Road, Lanham, MD 20706.

Editors: William K. Reisen, Arbovirus Field Station, 4705 Allen Road, Bakersfield, CA 93302. C. Dayton Steelman, Department of Entomology, University of Arkansas, Fayetteville, AR 72701.

Managing Editor: Raymond L. Everngam, Jr., 9301 Annapolis Road, Lanham, MD 20706.

7. Owner: Entomological Society of America (Nonprofit), 9301 Annapolis Road, Lanham, MD 20706.

8. Known Bondholders, Mortgagees, and Other Security Holders Owning or Holding 1% or More of Total Amount of Bonds, Mortgages, or Other Securities: None.

9. Purpose: The purpose, function, and nonprofit status of this organization and exempt status for Federal income tax purposes have not changed during the preceding 12 months.

10. Extent and Nature of Circulation:

	Avg. no. copies each issue during preceding 12 mo.	Actual no. copies of single issue publishers nearest to filing date
A. Total no. copies (net press run)	1,800	1,800
B. Paid circulation		
1. Sales through dealers and carriers, street vendors, and counter sales	485	427
2. Mail Subscription	1,081	1,045
C. Total paid circulation	1,566	1,472
D. Free distribution by mail, carrier, or other means, samples, complimentary, and other free copies	32	31
E. Total distribution	1,598	1,503
F. Copies not distributed		
1. Office use, left over, unaccounted, spoiled after printing	202	297
G. Total	1,800	1,800

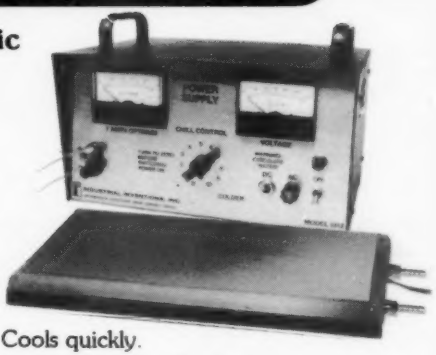
Now available with temperature control

Water Cooled Thermoelectric

Chill Table

Essential for speciating arthropods & virus isolation work.



- Keeps specimens cold while counting or sorting.
- Below 0°C work surface temperatures.
- Large work surface, 10" x12" (25.4 cm x 30.5 cm). Other sizes available.
- Requires only 115 VAC and running water.
- Cools quickly.
- Compact Power Supply.
- Eliminates messy ice trays or noisy compressors.
- Easily stored when not in use.
